## THE ART OF COMMODITY TRADING

- expanding tank storage**  
Expanding tank storage facilities and agreements in Rotterdam, Fujairah and Mersin reflects our commitment to strengthening global logistics capabilities and enhancing regional energy infrastructure. These strategic expansions aim to increase storage capacity.
- oil and gas**  
Implementation of Oil & Gas Enterprise Solutions involves deploying integrated systems that streamline operations, enhance data visibility, and improve decision-making across exploration, production, refining, and distribution activities.

- shipping**  
Registering a new shipping line in Europe requires not only navigating the intricate web of maritime regulations but also aligning with both national and EU-level frameworks that govern commercial maritime operations.
- venture agreements**  
Expanding joint venture agreements with the most famous refineries represents a strategic move toward greater market influence, resource security, and technological collaboration.
